## SUMMARY

Most of my programming skills are into web development, from theme programming to plugin programming for major CMS like WordPress, Drupal, Exponent and other PHP based CMS. I have also some backgrounds with Java Programming and Mobile development using Appcelerator. My direction is to be fully equipped and updated with the technology on web development.

## EXPERIENCE

### Founder, SherkSpear

2006- 2015

This is my personal, technical website. I create blogs, WordPress plugins and offers web services through SherkSpear.

SherkSpear is an IT provider which makes use of the Agile methodology for web development to create innovative websites from simple Blog sites, or with WordPress websites, Drupal, and such. It also provides web services like quick fix to your website bugs, IT consultations, and providing reasonable quotes to your projects.

### Plugin Developer, WordPress

Develops WordPress plugins and hosted some at WordPress.

WordPress Profile: <https://profiles.wordpress.org/sherkspear>
